An aerial photograph of a rural landscape. A large, irregularly shaped plot of land is outlined with a dashed cyan line. Inside this plot, there is a green field with a small cluster of buildings, including a large blue cylindrical silo and a tall metal structure, possibly a windmill or part of a farm. A dirt road runs along the left side of the plot. The surrounding area includes a paved road at the top, a body of water in the distance, and various green fields and forests. The sky is blue with some clouds.
